Beloved Ones:

When the planet Earth was first prepared by the great Builders of Form (the Seven Mighty Elohim) to be the cradle for the new spirit sparks drawn from the Heart of Helios and Vesta the design for the Earth's unfoldment and development was given into the care of the Silent Watcher and drawn by Her into the Fourth Sphere. Here it has lived and breathed ever since as a subtle but palpable blueprint which has become the actual inner atmosphere of this realm, always held within the thought and feeling centers of the Silent Watcher and animated by the directive energies from the Universal First Cause.

The Cosmic Magnet was given into the hands of the Hierarch of the Fourth Sphere just prior to the time that the first wave of humanity was to take incarnation, and the entrance of the Christ Selves of all who were to be part of this evolutionary scheme was in response to this magnetic pull. Here they have abided, living within the thought and feeling form of the Earth's perfection, incorporating as much or as little as their own consciousness could grasp and externalize of the God Design in the universal substance of the inner sphere.

It is in the exact same manner that the mankind of Earth live - right within the etheric design and perfection of the world of form; every man interpreting as much or as little of it as he can grasp - the rest remaining subtle until some

portion of the God-mind, working through man, externalizes it.

Now, the activity in which the Higher Self has been engaged, through initiative and its own perception of the God-will in the Fourth Sphere, will determine to a great extent that the outer self will accomplish in the world of form because the momentum is already established and the perfected design of that portion of the God Plan is already a palpable and living experience in the Fourth Sphere. It is, therefore, the responsibility of the outer self to find out (through contemplation and meditation) what its own Christ Self has been engaged in perfecting in the Fourth Sphere, and then become like a faucet through which Its influence might flow without stress, strain or struggle, thus lowering into the world of form the result of Its centuries and centuries of Creative endeavor on behalf of the God Plan.

Let Me repeat now - in the Fourth Sphere, each Christ Self, when It came to dwell there, became interested in and dedicated Itself to some facet of God expression and has lived through all the countless centuries of time since then utilizing Its energies in the development of perfection along that particular line. This devotion to and development of any one expression of God's Perfection becomes the full-gathered momentum of the lifestream, which is its individual, self-conscious gift to the planet Earth - and which can only be externalized in the world of form through the mind and feeling world of the outer self. You must also bear in mind that this outer self has been sustained from the beginning of time by the Christ Self to be a channel for Its expression.

You will see, therefore, that the heritage of every man has been pre-ordained, so to speak, through the decision and development of some particular part of God's Plan by constant endeavor through untold centuries by the Christ Self, and that it becomes the responsibility and obligation of the outer self, while still in embodiment, to find out, without failure, mistake, interference or delay (through contemplation) what has engaged the energies of that Christ Self all through this long period of time. Then, in powerful, positive and determined activity allow the full outpouring of that Christ Self to manifest through the head, heart, hands and creative centers of the outer self; thus fulfilling its mission, saying, as the Master Jesus did: "To this end was I born - for this reason came I into the world." You have, beloved ones, instant and constant connection with your Christ Selves through the Flame in your hearts. Arise now, and be about the Father's business.

Blessings and Love,

MAHA CHOHAN

Beloved Children of My Heart:

Etheric records are infallible reports of man's activities as he proceeds on his journey through form. To read those records, which are printed in the sensitive ethers that make up his aura, and also entered in his individual Book of Life, is to read the inner story of that which has been, the omissions as well as the commissions, and when one is of the awakened consciousness, it is an easy matter to trace the future effects which will spring from these causes. Besides these etheric records, there are also the fiery records held in the Mind of God of that which is to come.

These two sets of records are distinct and separate - one dealing with what has been, by which one may see that which is to come through either perfect or imperfect causes set up in an individual's past, and the other with the Divine Plan which is pre-ordained, and has nothing to do with the etheric records except that the higher plans are either helped or hindered by the human veil that stands between them and physical manifestation.

Around each lifestream, or over a locality, stand the etheric records dealing with the experiences of life through the centuries. These may be revivified for instruction or so that the lifestream may consume them (if they are of a destructive nature). When these records are fully transmuted and purified, the awakened soul sees that
